

## **INDION® PFAR**

**Speciality Ion Exchange Resin  
for removal of PFAS (Per &  
Polyfluoroalkyl substances).**

**INDION® PFAR** is a Specialized ion exchange resin developed by Ion Exchange (India) Ltd. specifically for the effective removal of PFAS compounds.

This resin is engineered to achieve high efficiency in eliminating these persistent and harmful substances from water and other environments where PFAS contamination poses a significant concern.

### **UNIQUE FEATURES**

- Tailor-made for effective PFAS removal.
- High capacity and operating efficiency aids in longer operating life of the product resulting in **lower CAPEX & OPEX.**
- NSF / ANSI Standard 61 / IAPMO certified
- Available in range of pack sizes: 25 L / 1000 L super sacks / 1 CFT\* / 35 CFT / 40 CFT / 7CFT/200 L HDPE Drum

\*Resin is available from our warehouses in Philadelphia/Houston/Brampton

Ion Exchange pioneered water treatment in India & today is a premier company in total water & environment management solutions, with a strong global presence.

With more than 60 years of experience in manufacturing ion exchange resins in our state-of-the-art, computer process controlled manufacturing facility; we cater to Exports worldwide - USA, Canada, UK, Europe, Japan, South East Asia, Africa & Sri Lanka.

We offer complete range of cation & anion resins for water and wastewater treatment as well as a host of speciality applications.

Our state-of-the-art manufacturing facilities are ISO 9001, ISO 14001 & ISO 45001 certified
